

The TLR-2 HL G with green laser provides a 720 lumen blast of light for maximum illumination while clearing a room or searching an alley. It produces a wide beam pattern that lights up large areas so you can identify who or what is nearby. Features a highly visible green laser for long-range targeting.

C4 <sup>®</sup> LED delivers 720 lumens; 237m beam distance; 14,000 candela; Runs 1.5 hours (Laser/LED simultaneously); Laser only function runs 17 hours
Engineered optic produces a concentrated beam with optimum peripheral illumination Green laser provides high-visibility long-range targeting
Solid-state current regulation for consistent illumination level
Securely fits a broad range of weapons; includes keys for Glock-style, Picatinny, Beretta 90two, S&W 99 and S&W TSW Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails
Windage and elevation adjustment screws mounted in brass bushings for long life and dependable zero retention; highly accurate sight repeatability when remounting

Operating temperature: -40°F to +120°F IPX4 water resistant
User programmable strobe can enabled/disabled
Tethered battery door and latch mechanism prevents battery door loss while providing easy battery replacement
Serialized for positive identification
3.39" (8.61 cm); 4.78 oz (135.5 grams)
